INDEX OF ABSTRACTS OF TUBERCULOSIS

Abortion for tuberculosis, Roentgenograms as legal evidence for, 1
Abscess, lung, Anaerobic bacilli from, 96
Abscesses, cold, Histology of, 67
Acid-fast bacilli, 31
— —, dissociation of, Single-cell, 35
Action of enzymes on tubercle bacillus, 34
Active immunization in experimental tuberculosis, 39
Adams, A., and Hawkins, F. S. Tuberculous pericardial effusion, 56
Addison's disease, 63, 64
— — complicating spinal caries, 65
— — in cancer of lungs, 65
Adhesions, cauterization of, After-treatment of, 74
— in incomplete artificial pneumothorax, Section of, 73
—, pleural, Experimental, 25
—, —, Pathology of, 89
Adolescents and young adults, Phthisis in, 5
Adrenals in tuberculosis, 66
Adults, young, Phthisis in adolescents and, 5
After-treatment of cauterization of adhesions, 74
Aged, Healing of pulmonary tuberculosis in, 23
—, Tuberculin reaction in, 6
Ahlenstiel, R. Final results of artificial pneumothorax and phrenicectomy, 74
Air embolism in artificial pneumothorax, 72
—, filtered, Treatment of hay-fever and asthma by, 87
—, Irradiated, in childhood tuberculosis, 12
Albert, A. Apical pleuritis, 55
Aldenhoven, H. Graphic registration of respiration, 27
Alexander, H. Treatment of "early infiltrate," 68
Alexander, H. L., and Kountz, W. B. Emphysema, 91
Allan, P. Climate of South Africa and tuberculosis, 4
Allergic inflammation and tuberculous infection, 39
Allergy, Cutaneous, after *BCG*, 9
Altitude and light, Influence of, on tuberculosis in guinea pigs, 67
Altschuler, M. M. Perifocal red-cell sedimentation rate, 52
Anaemia, Pernicious, and tuberculosis, 82
Anaerobic bacilli from lung abscess, 96
— microörganisms in respiratory tract, 30
Anergy to tuberculin in cardiovascular disease, 81
Aneurysm, Perforation of, into pleural space, 82
Animals, domestic, Eradication of tuberculosis in, 13
—, —, tubercle bacilli in, Types of, 13
—, Experimental tuberculosis of cornea in, 43
Anthony, A., Schlapper, K., and Isakowitz, H. Measurement of volume of pneumothorax, 89
Antibodies in tuberculosis, Autogenous, 36
Antigen, methylated, Treatment of surgical tuberculosis with, 59
Antigenic substances in urine in tuberculosis and syphilis, 37
Antigens, *S* and *R*, Complement-fixation with, 50
Apical pleuritis, 55
Apicolysis, 80
—, Extrapleural, 79
— with paraffine plombage, 80
Arbuckle, M. F., Moore, S., and Wilson, H. M. Heart in obstructive emphysema, 91
Argentophilic fibres in primary tuberculous foci, 26
Ariel, M. B. Argentophilic fibres in primary tuberculous foci, 26
Armand-Delille, P. F., Hechter, P., and Bayle, V. Severe reaction to gold salts in child, 12
Army officers, regular, Tuberculosis in, 3
Aronson, J. D. Tuberculin reaction in tissue cultures, 37
Arthritis, tuberculous, Diagnosis of, 60
Artificial pneumothorax, Air embolism in, 72
— — and phrenicectomy, 74

Artificial pneumothorax and phrenicectomy, Final results of, 74
— —, Complications of, 72
— —, Experimental, in rabbits, 73
— — exudates, Method of avoiding, 73
— —, incomplete, adhesions in, Section of, 73
— —, Renewed, 72
— —, Results of, 72
Ascher. Tuberculosis morbidity rates and employment, 2
Asthma, Bronchial, and pulmonary tuberculosis, 10
—, Cardiac, 81
— in childhood, 86
—, Occupational, 85
—, Treatment of hay-fever and, by filtered air, 87
Atelectatic bronchiectatic lobe, 90
Atypical pulmonary tuberculosis, 19
Auguste, C. Intrapleural formation of fibrinous bodies, 25
Autogenous antibodies in tuberculosis, 36
Autopsy, Incidence of tuberculosis at, 4
Avian tubercle bacilli, Human and, in hogs, 15
— tuberculosis in hogs, 15
— — — Muscovy ducks, 15
Avoiding artificial-pneumothorax exudates, Method of, 73

Bacillaemia and bacilluria in tuberculosis, 46
— in experimental tuberculosis, 46
— — rabbits as shown by Loewenstein's method, 35
—, Tubercle, 46
—, —, New formation of blood-vessels and, 26
Bacilli, Acid-fast, 31
—, —, dissociation of, Single-cell, 35
—, Anaerobic, from lung abscess, 96
— isolated at Lübeck, Vaccines from, 37
—, tubercle, and nonspecific substances, mixed, Experimental infection with, 44
—, —, bovine, Isolation of, 49
—, —, Cultivation and typing of, 33
—, —, Demonstration of, in diagnosis, 45
—, —, Detection of, in diagnosis, 45
—, —, Differentiation of, by culturing, 33
—, —, Human and avian, in hogs, 15
Bacilli, tubercle, in childhood tuberculosis, Demonstration of, 12
—, —, — domestic animals, Types of, 13
—, —, — stomach and faeces, 47
—, —, isolated from blood in polyarthritis, 48
—, —, Isolation of, from blood, 47, 48
—, —, Metabolism of, 34
—, —, Virulence of, 34
—, —, virulent, and *BCG*, Tests with, 35
—, Types of, in bone-and-joint tuberculosis, 61
Bacilluria in tuberculosis, Bacillaemia and, 46
Bacillus, tubercle, Action of enzymes on, 34
—, —, fatty capsule of, Protective function of, 34
Bacteria, Fixation of, in immune body, 40
Baker, J. N. Tuberculosis problem in South, 6

Büsing. Tuberculosis survey of schoolboys of Kiel, 5
Butschowitz, E. Virulence of tubercle bacilli, 34

Calcareous foci, Spread of tuberculosis from, 25
Calcification of pleura, 25
Calcium, Function of, 30
—, Serum, in bone-and-joint tuberculosis, 61
Cancer of lungs, Addison's disease in, 65
Cantor, M. O., and Baumgarten, E. C. Tuberculous mesarteritis, 57
Capacity, Working, of consumptives, 1
Capsule, fatty, of tubercle bacillus, Protective function of, 34
Cardiac asthma, 81
— function in pulmonary tuberculosis, 27
Cardiopulmonary reflex, Trigeminal, in pulmonary tuberculosis, 44
Cardiovascular disease, Anergy to tuberculin in, 81
Care, Postsanatorium, of tuberculosis, 67
Caries, spinal, Addison's disease complicating, 65
Carpi, U. Gold in tuberculosis, 69
Caryophyllis, P. Trigeminal cardiopulmonary reflex in pulmonary tuberculosis, 44
Catalsan, Treatment of surgical tuberculosis with, 60
Cattle, range, Tuberculosis in, 13
—, Tuberculin-reacting, without lesions, 14
Causal factors in tuberculosis, 9

Caussimon, J. Flocculation reaction in pulmonary tuberculosis, 51
Cauterization, intrapleural, Horner's syndrome following, 45
— of adhesions, After-treatment of, 74
—, thoraco-, Bilateral, 73
—, —, Thoracoscopy and, 74
Cavities, Healing of, 22
—, Tuberculous, 21
Cell, epithelioid, Origin of, in tuberculosis, 26
Cells, red, in pleural effusions, Changes in, 30
Cervical lymphadenitis, 53
— rib, 81
Changes in red cells in pleural effusions, 30
Chest, Roentgenography of, in children, 11
— X-raying of Munich high-school pupils, Compulsory, 5
Chiari, H. Congenital tuberculosis, 11
Child, Severe reaction to gold salts in, 12
Childhood, Asthma in, 86
— tuberculosis, Irradiated air in, 12
— —, pulmonary infiltrations in, Pathology of, 11
— —, tubercle bacilli in, Demonstration of, 12
Children, Chronic nontuberculous pulmonary diseases in, 88
— in tuberculous surroundings, 5
—, Roentgenography of chest in, 11
—, tuberculous, Immunization of, against diphtheria, 85
